

Tricon-Master Series Road Milling Bits

Benefits

Proven Value

20+ Years of Industry Experience
Used by Road Contractors Around the World

Innovative Technology

Proprietary Nano Technology
Superior Tungsten Carbide Grade

Greater Wear Resistance

Tungsten Carbide Maxtrix Achieves Greater
Wear Resistance

Extended Lifetime

Up to 50% longer lifetime for the teeth
Know to also extend the machinery's lifetime

Technical

The MasterBit series implements a unique “Nano” technology that enhances the cobalt binder matrix. This matrix, is credited for improvements in versatility, quality, lifespan, and reduction of overall operating costs.
